

The background image shows a science laboratory setting. In the foreground, a male student with dark hair and safety glasses is looking down at a laptop. His hands are on the trackpad and the red keyboard. To his left is a large Erlenmeyer flask containing a yellowish liquid, with a black tube inserted into it. In the background, a female student with long dark hair and safety glasses is working with a cardboard box and a green marker. Another student is partially visible on the right, holding purple balloons. The overall scene is a busy, educational environment.

Hangzhou International School

2020 - 2021

UPPER SCHOOL STUDENT HANDBOOK

HIS Upper School Parent Student Handbook

Dear HIS Students and Parents,

It is with great pleasure that we welcome you to Hangzhou International School. In the Upper School, we look forward to working with parents and students as members of our community over the coming year.

This handbook is a tool to help make this a successful year at HIS for the Upper School community and students. It contains information and procedures aimed at making the Upper School a safe, friendly, and enriching place for students to develop their interactions with the world around them.

There are some changes to the Student-Parent Handbook this year; be sure to read them carefully as you discuss the policies and procedures at home. While we attempt to ensure that this is a comprehensive document, situations may arise that will require additional clarification. Please refer to the HIS Upper School webpage for further updates or information.

Please feel free to share any comments or suggestions with us throughout the coming year. We value your assistance in making this a rewarding year for the students at HIS.

We look forward to becoming better acquainted with every member of our HIS community this year.

Sincerely,

A handwritten signature in black ink, appearing to read 'Jessamine Koenig'.

Jessamine Koenig, EdD
Upper School Principal
IB Diploma Programme Coordinator

Part I: Who We Are

I.1 Mission Statement

We provide international learners with opportunities to pursue academic and personal excellence within a caring community.

I.2 Historical Background

Hangzhou International School is an independent, co-educational international school. HIS opened in 2002 under the aegis of Shanghai Community International School, which was founded in 1996 on the Changning campus, and currently operates additional campuses in Shanghai in the Hongqiao and Pudong communities. HIS is a member of the East Asia Regional Conference of Overseas Schools (EARCOS), and has been fully accredited by the Western Association of Schools and Colleges (WASC) since 2006.

HIS Governance

HIS is overseen by a Board of Governors, which is appointed in accordance with the bylaws of the school's Deed of Foundation. The self-perpetuating, "corporate governance" model used at HIS and the other ISF schools has been supported for many years by the European Council of International Schools in the United Kingdom, and has been more recently endorsed by International Schools Services in Princeton, New Jersey.

International Schools Foundation

HIS is affiliated with the International School Foundation.

ISF is domiciled in Lansing, Michigan, and is directed by Larry Balli, Kristy Dewi, and Michael Dougherty. The directors receive compensation from the schools in accordance with respective Articles of Association at each school, and within limits set by the respective governments for not for profit schools in each country. Schools established under ISF direction include the American International School of Cape Town, Hangzhou International School, the International School of Perth (now managed by the Chevron corporation), North Jakarta International School, and Shanghai Community International School. The International Schools Foundation has been vetted and accorded 501 c3 status (not for profit) by the Internal Revenue Service of the United States. The ISF was established to solicit tax-deductible philanthropic contributions to benefit its affiliated international schools, but it does not own nor does it have legal connection with or liability for any of these schools. Each school affiliated with ISF is registered in its respective country under the auspices of not for profit regulations of that country.

Philosophy

Schooling should be a multifaceted experience which results in students learning to think creatively and critically, to gain practical skills which will equip them for ensuing stages of education and life in general, to explore areas of interest, including their own selves, and to learn to cooperate with and appreciate other people. We recognize that in addition to preparing students for each successive stage of their education, schooling forms a significant

chronological segment of a person's life and therefore has its own intrinsic value and importance, a value beyond simply preparing for the next chapter or the next grade level.

Our aim in every classroom is to create a dynamic and interactive learning environment with challenges and expectations appropriate to the complex world our students will inhabit. We focus on the development of each student's skills, sense of logic, and general academic and social discipline. Most importantly, we aim to foster a lasting love of learning that will extend outside the school curriculum, and beyond the student's years at HIS.

Our students are inheriting a world in which the discovery, assimilation, understanding and management of information not yet imagined will be vital to them. Our goal, accordingly, is to reach beyond a content-oriented curriculum and to provide students with the academic skills and intellectual confidence to apply knowledge to thoroughly new problems and situations.

In doing so, we seek to take advantage of the many learning opportunities unique to the international school setting and, more specifically, to our location in China. Students at HIS gain an understanding and appreciation of the diversity of nationalities and cultures which will prepare them to tackle the challenges of an increasingly interdependent world.

1.3 School Expectations & Values

What the school expects of students

- We expect students to behave in a way that is conducive to a productive educational atmosphere. This means that students will not only strive to take full advantage of their own opportunities here, but also do nothing that might interfere with others striving to do the same.
- We expect students to respect their teachers and adults in the school.
- We expect students to arrive on time ready to learn. This means that students have spent the necessary time on the previous day's home learning assignments, have had sufficient sleep, and have had breakfast.
- We expect students to show consideration for others,

and to accept and appreciate people from other races, creeds, and backgrounds.

- We expect students to learn and play together harmoniously, to help others, and to show good sportsmanship in games.
- We expect students to show care for the property, buildings, and flora of the school, and to exercise responsibility appropriate to their age.
- We expect students to be honest.

What students can expect of the school

- Students can expect the teachers and administration of their school to have their safety and well being in mind at all times.
- Students can expect that their highly qualified teachers will be devoted to helping them learn and grow.
- Students can expect teachers to approach topics from a variety of angles to insure that students with different learning styles will have every opportunity to visualize and grasp new curricular material.
- Students can expect teachers to listen to them, and to try to understand them, although teachers may not always condone a student's behavior, or agree with everything a student says or wants, .

Values

- We value an atmosphere of open inquiry tempered with a sense of order and consideration for others.
- We value the appreciation of diversity, and the opportunity to learn from the multitude of cultural backgrounds represented in our international school.
- We recognize the individual nature of each student, and value a community in which these individuals can learn together harmoniously.
- We value the opportunity to stimulate the love of learning, which we believe is in every child.
- We value creative and inventive thinking, and the ability to approach problems from different angles.
- We value our opportunity to learn about China, our host country, and the importance of our Chinese teachers and staff, who serve as our most important link to this country.
- We value the human relationships that constitute our community and foster learning: relationships between teachers and students, between students, between teachers and parents, and between parents and their children.
- We value parents' concerns, involvement, and contribution to the life of the school.
- We value the development of character and integrity in each of our students.

1.4 Faculty

HIS faculty are hired through a rigorous program of recruitment, accessing national and international agencies to secure qualified, certified, and experienced educators for our student learning needs. Faculty members are recruited from a variety of locations, but meet a high level of quality, and experience expected for the HIS community.

Part 2: How We Operate

2.1 Admissions

All questions regarding admission to the Upper School program should be forwarded to the Director of Admission for HIS.. Upper School admission requirements may change from year to year and include the following:

Eligibility to Attend HIS

HIS is subject to the laws of the Government of the People's Republic of China, and the regulations set by the Ministry of Education. International schools in China are exclusively for the children of foreigners temporarily residing here. The student must hold a foreign passport and appropriate documents in order to be enrolled.

Passport and Visa Requirements

By Chinese law, international schools may accept children of expatriates residing temporarily in China and traveling on a foreign passport. The school must see the original passport and visa of the student at the time of registration and will

maintain photocopies in the student's file.

Transcript Review

Grade level placement and class scheduling is based on a transcript review that matches students to appropriately leveled classes. This may involve placement in classes typically at grade levels above and/or below the student's age appropriate grade level. This process also involves the granting of Earned/Transfer Credit.

ESOL Support

ESOL support for students will be determined at the time of admission. A fee for support will be levied by the finance office at the time of enrollment for WIDA testing and support.

Student Support Service Fees

SST support for students will be determined at the time of admission or through consultation with the SST and admissions office.

Class Placement

Upon enrollment, students are placed in a grade or section based upon their previous academic history and their chronological age. Grade placement is the purview of the school administration. While parent input will be considered, the school determination will be final.

Tuition and Fees

Tuition fees pay for all the operating and capital costs of the school including teacher salaries and benefits, books and materials, computers and software, utilities, building, and operating expenses. School fees also include many other ancillary goods and services as detailed each year on the annual fees document and according to current board policy. All fees must be paid prior to a student starting school. For specific information regarding payment and refund policies, please contact the admissions department, or refer to the HIS website - [Tuition & Fees](#)

2.2 Facilities

Hours of Operation

The school day starts at 8:00 am and ends at 3:00 pm. Upper School students are expected to arrive to school between 7:30-7:55 so that they are prepared to begin instruction promptly at 8:00 am. Buses leave school at 3:30 pm. Co-Curricular activities run on a schedule that varies according to grade level and activity. The school is generally open from 7:30 am – 6:00 pm, Monday-Friday. Students are expected to be in supervised settings from 3:15 onward on any given afternoon. Students should not be on campus after 6pm or on weekends unless they are in a school-authorized activity with supervision. During evening events, the campus will be open based on the activities scheduled. Due to Hangzhou Education Bureau restrictions, parents are not allowed on campus unless specifically invited for meetings or small group events.

Library

The library is open from 7:30 am – 4:30 pm. Upper School students are able to check out resources for up to two

weeks. Students are expected to abide by the procedures outlined by the HIS librarians. The HIS library functions as a center of learning and

enjoyment for students on a daily basis. The library also serves as a resource center with written, audio-visual, computer-based, and graphic resources.

Students are encouraged to use the library for both learning and leisure. Students should become familiar with proper use and care of the library systems and resources. They are taught to select appropriate reference materials and to collect, organize, and present information effectively for research assignments. Through literary appreciation, students build awareness and appreciation of different literary forms.

Students will use their library time for research on class projects or browsing, checking out books, and reading. It is expected that Upper School teachers will insure that

students spend time in the library as part of their course requirements.

Cafeteria Procedures

In order to provide a sanitary and socially distanced experience, student lunch schedules are staggered to accommodate access to food and seating that meets the health code guidelines. Students are served all food by cafeteria workers so that they do not handle any item that may be accessed by other students. The cafeteria seating areas are regularly sanitized between grade level and divisional lunch sessions.

Students are supervised while at lunch and recess. Students are expected to remain seated or move about in a calm and orderly fashion. Students are also expected to clean up all of their own trash and return trays when finished. Good etiquette with respect to the lunch staff members and other students is expected at all times.

Middle School students are able to enter the cafeteria between 11:55 - 12:05, then the High School students can enter between 12:10 - 12:20. Once they finish their meal, students are released to the playing fields, library, or common areas until 12:30 pm. Students should be in their 4th block class by 12:35, except for Tuesdays when they have extended lunch, and block four begins at 12:45pm.

Uniform

HIS students adhere to a dress code which we believe promotes a sense of orderliness and school community, helps with campus and field trip security, and reduces “fashion competition” which can sometimes lead to social cliques or ostracizing based on superficial judgments.

Middle School students (Grades 6, 7 and 8) wear tan shorts, trousers, or skirts and a navy blue polo shirt (short or long sleeved) with the HIS book logo. A navy fleece or cardigan sweater with the HIS logo or other approved outerwear such as the HIS hoodie sweatshirt can be worn in the cooler weather.

High School students (Grades 9 through 12) wear tan shorts or trousers, or plaid skirts (girls only) and a light blue Oxford cloth button down short or long sleeved short with the HIS book logo. A navy fleece or cardigan sweater with the HIS logo or other approved outerwear such as the HIS hoodie sweatshirt can be worn in the cooler weather.

All students must wear laced shoes. Athletic shoes or sneakers are acceptable. “Flip-flops”, “thong” sandals, or other beach-type footwear are not appropriate for school. Caps or hats in the classroom are also inappropriate. It is preferred that winter outerwear be navy blue, grey or tan in color, and these garments should be removed when indoors. The use of light sweatshirts/hoodies or sweaters that are not distributed by the school are not acceptable during school hours. All students are expected to be well groomed and appropriately dressed at school or during school-related functions off campus. Facial jewelry for males or distracting or bizarre jewelry for girls is not allowed. Immodest or distracting attire is inappropriate in our multi-cultural setting, and this can extend to haircuts, hair dyes, jewelry, makeup, body art or other aspects of

personal appearance.

There are occasionally days on which students are not required to wear the school uniform, usually in connection with a special holiday or event. On those days, students are expected to wear shirts with sleeves (no tank top or halter top shirts) and must look neat and presentable.

Students who do not have the proper school attire will be sent from their class to the school office, where they can phone home to have proper clothing sent to school or will be able to purchase new clothing from the Dragon Shop..

PE Dress Code

When students attend PE classes at HIS, they are expected to be dressed appropriately for rigorous, physical exercise. All students should wear close-toed athletic shoes for PE lessons. Sandals and “dress” shoes are not considered appropriate for PE class. Upper school students will be able to change into their PE uniform once they arrive in class and will be permitted to change back into their usual school uniform before leaving class. “Proper attire” will be characterized as an HIS PE shirt along with shorts or sweatpants.

Textbooks and School Materials

Textbooks, library books and other school materials loaned out to a student should be returned before the deadline in good condition.

Students who lose textbooks, library books, or other school materials must pay for their replacement.. It is the responsibility of the student to return books and other materials in good condition (with allowances made for normal use). These resources are checked out in the student's name, and if they are not returned (or a fine paid), the student will not be issued a progress report or HIS transcript. Students are encouraged to check Destiny accounts periodically to see what is currently checked out to them to avoid turning in a classmate's text.

Students will have access to some stationary resources such as notebooks or writing utensils. All other classroom materials (pens, pencils, notebooks, binders, etc.) should be purchased by the student. Individual teachers will detail the

materials required in the beginning of the year.

It is common practice that students purchase special items for some classes. These items include specialized calculators for math classes, specific resources for science experiments, or specialized art supplies for art projects. These items will be used for individualized student projects and will not necessarily be covered by HIS annual orders. If a student purchases an item, he or she can expect to keep the item.

Students should expect to obtain their own calculators for math and science classes. It is not the school's responsibility to provide such calculators, but the school may have some available for loan.

- Grade 6-8 – a scientific calculator is expected
- Grade 9-12 – a TI-84 Plus CE graphic calculator

Required school supplies:

Provided by students:

- Three ring binder with dividers or accordion folder (50mm binder minimum)
- Scientific Calculator
- Pencil bag/case
- Ball point pens- black and/or blue ink (6pcs)
- Pencils (10pcs)
- Eraser
- Highlighters (4pcs)
- Small pencil sharpener
- Post-it notes
- Plastic ruler - 30cm
- Binder Dividers (10pcs)

Optional School Supplies:

- Whiteboard markers (2pcs)
- Colored pencils
- Scissors
- Glue stick
- Lined paper (30pcs)
- Graph paper (20pcs)
- Plastic sleeves (10pcs)

THREE-RING BINDER WITH DIVIDERS

ACCORDION FOLDER

SCIENTIFIC CALCULATOR

Lockers

Students are provided with locks and lockers for storing personal belongings. Items such as bags, books and clothing left unattended in the school may be removed to office for later retrieval. Lockers are school property furnished for student convenience. Each student may request a locker and a combination lock. Students are advised not to share their locker combinations with others. Upper School Administration reserves the right to inspect school lockers. HIS is not responsible for missing items.

Lost and Found

Lost and found items are stored in the Gymnasium and Library entrance and are periodically put on display at the front gate. Items marked with the student's name will be returned to her or him in care of his or her advisory class. We strongly encourage parents to have their child's clothing and personal items labeled with name and grade when practical. Unclaimed items are cleared out each term and donated to charity.

Personal Belongings

Students are discouraged from bringing expensive personal items to school such as toys, electronic devices, and large amounts of cash or valuable personal belongings. Students may ask the office to hold onto any valuable that must be brought to school for various reasons. Parents are encouraged to discuss these issues thoroughly with their students and encourage them to be responsible with their personal possessions.

Deliveries

Deliveries to students by parents are welcome. In order to minimize class disruption, items should be brought to the office for delivery.

Students are not allowed to order food or drinks for delivery to the school unless they have teacher or adult approval.

Telephone

Students may use the school phones in the offices for important calls to parents only. Mobile phone use is at the discretion of the classroom teacher. Students in Grades 6-9 turn their phones in to their advisory teacher each morning and pick them up at the end of the day. Students are expected not to use their mobile phones during break or lunchtime; but instead should be socializing with classmates and teachers.

Parents may leave messages for students or teachers with the receptionists, but the school office staff will not summon teachers or students from class to come to the phone, as it is disruptive to learning.

Facilities Usage

HIS can make classroom, theatre, or athletic facilities available to groups conducting classes or activities outside of the regular school program, including outside groups, on a fee-paying basis. Contact the school office for requests and prices. Any interested party can fill out an Application for Use of Hangzhou Facilities. (Fee waivers for recreational activities may be made at the school's discretion.) School functions will take priority for the use of school facilities.

2.3 Daily Schedule

Gate Entrance Procedures

Due to Hangzhou Education Bureau COVID-19 precautions, parents are not allowed to enter the campus unless specifically invited. Upper School students are able to enter the back gate (located on Xipu Road)

between 7:30 - 7:55 am. Students are expected to show their Hangzhou Health Pass Green Code, have their temperature checked, and sanitize their hands at the gate entrance.

Arrival / Departure

Students in Upper School can enter and exit through the back gate on Xipu Road. Drivers should drop students off at the corner or the entrance to the walkway, but avoid a u-turn at the entranceway, due to pedestrians and flow of traffic. Please inform drivers that they should not blow their horns outside of campus, and should move along if directed to do so by our school security.

All visitors should note that entrance guards are instructed to stop each person at the gate to ascertain the nature of their business on the campus.. Parents are requested to provide a photo to the school secretary to create a parent ID badge. We ask that parents and visitors approaching our entrance gates treat the guards courteously and respectfully and maintain sufficient distance between the gate and each other when waiting for school to finish. .

HIS Typical Schedule

Upon arrival each morning, students should go directly to their advisory classroom to have their temperatures checked and attendance taken. If a student arrives after 8:05, he or she should first go to the front office to sign in and have his or her temperature checked.

Each day consists of five 70 minute class periods that meet several times throughout the week. Core courses are scheduled three times a week per requirements for instructional time; blocks for advisory are provided within the schedule. Non-core subjects meet less frequently. The rotating schedule will allow students to practice time management opportunities and develop positive interactions with their teachers. A generic Grade 10 schedule is indicated below, but would be personalized for each student's courses.

For more information about schedules, please visit the [HIS website](#).

Record Keeping, Absences, and Tardies

Teachers keep a daily record of student attendance and will record any absent or tardy students through Managebac. Students arriving late to school (after 8:05) should obtain a late slip from the front office before going to their first period class. They will be marked tardy unless they have an excused absence.

Students who are late due to the late arrival of an HIS bus will not be penalized and will receive a late slip. Students who arrive more than 15 minutes late to any class will be considered absent and will need to clear the absence through the main office.

Excused / Unexcused Absences

It is the parent's responsibility to inform HIS on the first day and each successive day of a student's absence. Parents can send an email to the Upper School secretary azhang@his-china.org indicating the nature of the absence and a return date/time. Parents may also indicate an absence through the Managebac parent portal. Once the parent notification has been received, the main school office will then change the recorded absence to "excused" in the Managebac database under the conditions listed below:

For pre-planned absences, students are encouraged to meet with teachers prior to their absence. Teachers can then assign make up work so that the student has less work to complete upon returning. Whenever possible, please schedule doctor and dental appointments after school hours. The following absences are excused*:

- Illness
- Serious illness or death in the immediate family
- Emergency medical situations
- Absences approved in advance by administration

Period	Mon, August 24	Tue, August 25	Wed, August 26	Thu, August 27	Fri, August 28

* Students should arrange to make up missed work by communicating directly with teachers or meeting with them during office hours. Students should be aware that, as a rule, they will be responsible for all material that was missed due to any type of absence and should be prepared for assessments that take place upon returning to school.

Unexcused Absences

If a parent does not directly inform the office through email or ManageBac of the students' reason for missing school, then the absence is considered unexcused. Students may be at risk of not completing the semester's learning requirements if they miss more than 10 days in a semester.

Tardies

Students should be in class at the designated time, ready to learn. If a student comes unprepared for class, or must leave to get materials, this can also be considered a tardy. Students who are more than 15 minutes late for a class will receive an unexcused absence.

Students Arriving / Leaving School Mid-day

Students are not allowed to leave campus before the end of the school day without written parental permission or contact with the upper school secretary. In an unplanned situation, parents should contact the secretary in writing or through email communication to gain assistance from the school staff for dismissal.

Activities and Absences

A student will not participate in Co-Curricular Activities after school on a specific day if:

- They are absent in the morning because of illness and do not return before the start of their lunch period. (If

this involves an important single event like a concert, the administration and event supervisor will decide on a case-by-case basis.)

- They leave during the day for illness

If a student leaves during the day and has the absence excused in advance by the Principal or Athletics Director, they may be allowed to participate in after school activities that day.

2.4 Transportation

Hangzhou International School, through a contracted bus service, provides bus service to many parts of Hangzhou.

Registration

A bus service registration form should be given to the office at least one week before the desired commencement or address change for bus service. Every new address affects the routes of several vans, and service cannot be started prior to this one-week period. Registration and pick-up change requests are filled in the order of payment made, and are subject to seat availability.

Rules for Bus Conduct

The school reserves the right to refuse service to any part of the city that is impractical because of its location relative to other pick-up points. The school also reserves the right to suspend or remove students from the bus service should they not adhere to the rules.

Safety First

There are two basic rules that supersede all others in importance and simplicity: Remain in your seat with the seat belt fastened and do nothing which might distract the driver.

Be on time

The driver will wait two minutes past the scheduled time; after that, he has been instructed to leave so that the others on the route are not late to school. If your bus often is late or very early, please report this so that the driver can be reminded to move along to the next house after the two-minute waiting period. Also, please check with the office if there is any doubt about your own pick-up time. If your bus comes too early, it will wait until your scheduled pick-up time, but check to make sure of that time. Schedules change every time a new student is added to the bus system! If your bus is always early, let the office know so that the preceding students can be assigned a later pick-up time.

If your bus does not arrive, please telephone the school to see if it is simply late. Please understand that the drivers cannot control unusual traffic conditions such as weather, roadwork, or accidents. If the bus has missed your house due to a substitute driver unfamiliar with the route or some such reason, the office can make other arrangements to come and collect your child.

Students who wish to ride home on a different bus must bring a WRITTEN REQUEST from a parent (this also serves as a parental permission letter). Any such request should be submitted to the transportation secretary and is contingent on availability of space. Students will not be allowed to board a bus that is already fully loaded.

If there is an accident or the bus breaks down, students should listen for instruction from the driver or monitor. If students are told to leave the bus, they should stay together with the other students as far from the road as possible until a service vehicle and another van arrives. Please contact HIS transportation coordinator at transportation@his-china.org or an administrator with any questions or concerns.

2.5 Visitors

All visitors must sign in at the entrance gate and proceed to the main office to check in. Visitors wear the “visitor” name card during their visit so that our staff and students will know to help guide them.

Visitations by non-enrolled students

Former students are allowed to visit the school with advance notice or prior arrangement. Students are able to meet in the cafe during lunchtime and are asked to limit their movement around the school in accordance with arrangements made with the Principal.

Alumni students must be prepared to show their Alumni badge to gain entrance and will be asked to complete the usual entrance requirements of health code, temperature, and hand sanitation.

HIS is not prepared to accept supervision and liability from visitations by non-enrolled students. As such these visits are not allowed due to the unnecessary workload placed on the classroom teacher to provide an effective program for any child who might be visiting. Further, visits such as these can be distracting to the other students and take unnecessary time away from the teacher. In some cases, the Director of Admissions may set up a visit by a student who is not enrolled to see if they are suited for the HIS school environment. In these cases, generally a parent will be present and supervise the student during such a visitation. If a parent of a non-enrolled student wants to bring them to school to see the school, and stay for a brief visit over lunch, this can be arranged, but generally time in class will not be allowed.

2.6 Curricular Programming

Curriculum Overview

Hangzhou International School is an International Baccalaureate World School (IBO). HIS is recognized as a three-programme IB Continuum school, offering the Primary Years Programme (PYP), the Middle Years Programme (MYP) and Diploma Programme (DP). Within the Upper School, the curriculum is organized according to eight subject groups. Each subject is aligned to HIS content standards chosen to serve the multi-national nature of our learning community. These standards are based on research, standards, and are developed across international continuums and target dispositions toward life-long learning, college/university preparation, as well as life and work in a global society.

Upper School students take the following subjects:

Subject	Language of Instruction
Language and literature	English and Chinese
Language B *	English, Chinese, Spanish
Social Studies §	English
Math	
Science	
Arts »	
Physical and Health Education	
Design	

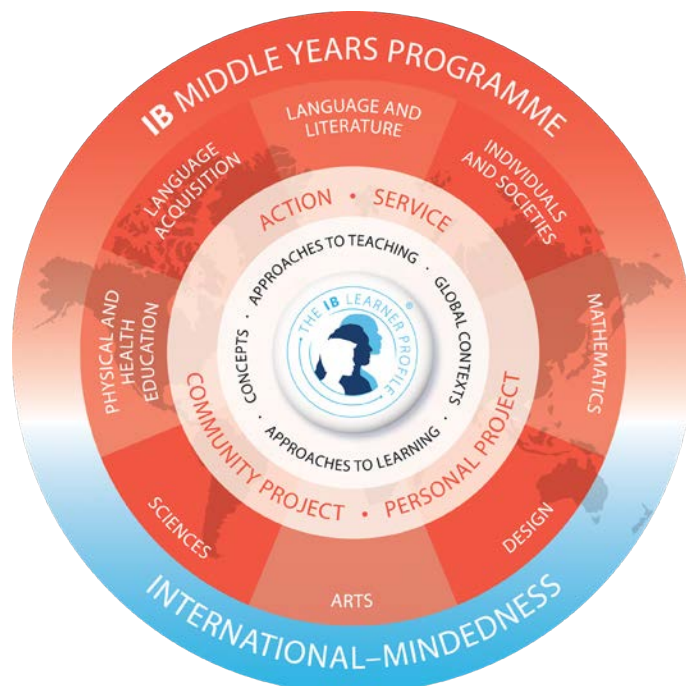

At all levels, students engage in a wide range of interactive learning experiences, both on and off campus. These activities assist each student to develop a sound core of knowledge, a sense of logic, intellectual confidence, life-long learning skills and the opportunity to engage in learning activities beyond the classroom.

Language Guidelines

HIS empowers students by providing opportunities to develop as communicators and to build confidence in the use of language. HIS recognizes the linguistic diversity of its student community and strives to meet their educational needs including those associated with language acquisition and development. The primary language of communication and instruction at HIS is English.

HIS will encourage students' understanding and appreciation of the host country's language and culture. Mandarin language and Chinese culture will be offered specifically within our curriculum from Nursery -Grade 12. HIS will recognize the importance of Mother Tongue instruction as a means of helping students maintain their first or best language as well as English language proficiency development. To see the [HIS Language Policy](#) Guidelines please access the HIS website.

with Academic Guidance and College Counseling so they are ready to commit to IB subject choices and levels, and ready to engage the university admissions process. The goal of High School learning is to complete the graduation requirements for the HIS High School Diploma and be role models of the HIS Mission.

Middle Years Programme (Grades 6-10)

The MYP aims to help students develop their personal understanding, their emerging sense of self and responsibility in their community.

MYP teachers organize the curriculum with appropriate attention to:

- **Teaching and learning in context.** Students learn best when their learning experiences have context and are connected to their lives and the world that they have experienced. Using global contexts, MYP students explore human identity, global challenges and what it means to be internationally minded.
- **Conceptual understanding.** Concepts are big ideas that have relevance within specific disciplines and across subject areas. MYP students use concepts as a vehicle to inquire into issues and ideas of personal, local and global significance and examine knowledge holistically.
- **Assessment.** Students are assessed against common criteria that are identified for each subject. Students demonstrate their knowledge and understanding through formative and summative tasks.
- **Approaches to learning (ATL).** A unifying thread throughout all MYP subject groups, approaches to learning provide the foundation for independent learning and encourage the application of their knowledge and skills in unfamiliar contexts. Developing and applying these skills help students learn how to learn.
- **Service as action** (community service). Action (learning by doing and experiencing) and service have

Divisional Organization

The Upper School (Grades 6-12) incorporates a Middle School division (Grades 6-8) and a High School division (Grades 9-12) as part of their organizational structure. In addition to rigorous academic learning, the Middle School division places great emphasis on social development, participation, and exploration of individual skills and interests. The High School division (Grades 9-12) focuses on greater depth and understanding of subject matter and transition to a college-preparatory program. All High School students earn subject credits for successful completion of each semester at HIS, which are entered into transcripts that are used by many university admissions departments. High School students generally have more elective choices within their academic and extra-curricular learning. Students completing Grade 10 are supported

always been shared values of the HIS community. Students take action when they apply what they are learning in the classroom and beyond. IB learners strive to be caring members of the community who demonstrate a commitment to service—making a positive difference to the lives of others and to the environment.

- **Language and identity** – MYP students are required to learn at least two languages. Learning to communicate in a variety of ways is fundamental to their development of intercultural understanding and crucial to identity affirmation.

Middle School (Grades 6-8)

Students in Middle School are introduced to a variety of courses, experiences, and learning opportunities. Students are tasked with learning new topics, demonstrating mastery of content and skills, and applying their learning to a wide range of new situations. In Middle School classes, students move between different classrooms for each subject. Each student is expected to demonstrate attainment in subject criteria. Teachers assign a variety of assessments including examinations, presentations, essays, and other methods to check students' understanding.

Students focus on developing and maintaining self-management skills through appropriate use of student planners and become acquainted with their technology and the software platforms available.

The Community Project is undertaken by all students in grade 8. The Community Project encourages students to explore their rights and responsibility to implement service as action in the community. Students may complete the Community Project individually or in small groups.

Advisory Program

Students in Middle School are assigned to a small-group advisory where they receive daily interactions, information, and guidance from a teacher. The program encourages social and emotional development, character trait

improvement, and a core group of student interactions for growth and development throughout the year. Advisory teachers typically move up with the grade level each year

to keep stability within groupings.

Homework

Homework is an important part of the educational program in Middle School. It provides students with opportunities for independent practice, skills reinforcement, and research, while also promoting good time management and responsibility. To prevent students being over-loaded with homework the following guidelines have been developed:

Total homework time for any given night will vary. Some children will find some assignments more time-consuming than other children, and sometimes this divergence will vary according to the subject. (One child might complete math homework in less than the average time, but social studies in more than the average time.) Roughly, however, Upper School students should expect to spend:

- Grade 6: 1 hour per night
- Grade 7: 1 – 1.5 hours per night
- Grade 8: 1-2 hours per night

As many classes will meet multiple times during the week, so some classes will have two days between sessions, while others will only have one. In many cases, students are working on on-going projects over extended periods of time. Students often benefit from developing effective habits of time management and breaking larger projects into more manageable chunks that can be completed in parts.

If homework is consistently taking considerably more or less than the time suggested above, or if the student insists that “we never have any homework in that subject,” then there could be a communication problem. The parent should contact the teacher to address this misunderstanding or any problems which may exist in the way the student is addressing the assignments. Note that teachers are expected to post upcoming assignments and assessments in Managebac.

High School (Grades 9-12)

Students in High School are expected to join learning

experiences and demonstrate stronger resilience and academic attainment. Students are given a larger sense of autonomy in this level and expected to demonstrate more responsibility as well. Student learning experiences are varied and contextualized, but focus on content, concepts, and specific skills necessary for success.

Advisory Program

Students in High School also are assigned to an advisory group, which provides social-emotional support, core interactions, university counseling, and life skills. Students meet with their advisor, the college and career counselor, and other instructors to improve their ability to function within the world of the future. With the increased expectations on high school students, comes increased responsibility and performance.

Personal Project

HIS students in grades 9 and 10 complete the Middle Years Programme (MYP) with the final submission of the Personal Project. Each student develops a project independently, producing a truly personal piece of work that stands as a summative review of their ability to conduct independent work. The projects are moderated by HIS teachers and submitted to IB for a final score.

Homework

In High School, total homework time for any given night will vary. Roughly, High School students should expect to spend:

- Grade 9-10: 1.5 – 2 hours per night
- Grade 11-12: 2-3 hours per night

High School Credits Earned: Semester and Final Grade

Course credit will be awarded on a semester basis. There are two semesters within one year. Students must attain a passing mark of 3 or higher each semester to be considered passing, and must pass both semesters to receive the full credit for the year.

International Baccalaureate Diploma Programme

The IB Diploma Programme is an academically challenging and balanced programme of education, with final examinations, that prepares students aged 16 to 19 for success at university and in life beyond. It has been designed to address the intellectual, social, emotional and physical well-being of students. The programme has gained recognition and respect from the world's leading universities.

DP students must choose one course from each of five subject groups delivering a breadth of knowledge and understanding in language and literature, individuals and societies, the sciences and mathematics. Furthermore, students must also choose either an arts course from the arts group or a second course from one of the other subject groups. DP courses can be taken at higher level (HL) or standard level (SL). At least three are taken at HL (240 teaching hours), while the remaining courses are taken at SL (150 teaching hours). SL courses ensure students are exposed to a range of disciplines that they might otherwise opt out of, and HL courses allow students to spend more time with subjects they are more interested in by exploring options in addition to the SL core curriculum. In this sense, all DP courses, regardless of whether they are SL or HL, are integral to the programme.

Attainment Level Descriptor Chart

Attainment Level	Descriptor	Demonstrated Performance
6 or 7	Exemplary	Consistently demonstrated thorough knowledge and understanding of course content presented to date with outstanding sophistication and or quality
5	Good	Consistently demonstrated broad knowledge and understanding of course content presented to date as per all course expectations
4	Satisfactory	Demonstrated sufficient knowledge and understanding of course content presented to date as per most course expectations
3	Adequate	Demonstrated adequate knowledge and understanding of course content presented to date
1 or 2	Poor	Demonstrated minimal knowledge and understanding of course content presented to date

High School Graduation Requirements

Students in high school are required to complete a minimum of 25 credits as outlined below to earn an HIS diploma. Please refer to the HIS Upper School Course information for further details. Each credit requires an entire year (two semesters) of passing marks. The HIS High School Diploma is separate from an IB Diploma.

Students enrolled in IB courses will receive a regular course grade from the HIS teacher (included on transcript with an IB designation). IBDP students also receive a grade based on the final IB examinations administered to all IB students worldwide. Scores on this test determine the possibility of earning an IB diploma and of earning college credit. This final external exam score is not included on the HIS transcript, but can be transmitted directly from IBO to the intended universities.

IB Exam fees

Fees for IB Exams are payable by the student and families. At the beginning of the second year of the IB Diploma Programme, students and parents will be notified regarding the exact amount of fees required to cover the exam costs. These fees can be payable at time of re-registration in March.

Part 3: What We Do

3.1 Academic Guidelines and Policies

All matters concerning registration, course selection, grading, credits/records, graduation, and testing (outside HIS system) are processed through the Principal's office.

Class Size

The Board has established guidelines for class sizes which vary according to grade level, classroom size and other factors. In extenuating circumstances, and when it is of

DP features three core elements that broaden students' educational experience and challenge them to apply their knowledge and skills.

- **The extended essay (EE)** requires students to engage in independent research through an in-depth study of a question relating to one of the DP subjects they are studying. The world studies EE option allows students to focus on a topic of global significance, which they examine through the lens of at least two DP subjects.
- **Theory of knowledge (TOK)** develops a coherent approach to learning that unifies the academic disciplines. In this course on critical thinking, students inquire into the nature of knowing and deepen their understanding of knowledge as a human construction.
- **Creativity, activity, service (CAS)** emphasizes helping students to develop their own identities in accordance with the ethical principles embodied in the IB mission statement and the IB learner profile. CAS complements a challenging academic programme in a holistic way, providing opportunities for self-determination, collaboration, accomplishment and enjoyment. It involves students in a range of activities alongside their academic studies throughout the DP. The three strands of CAS are creativity (exploring and extending ideas leading to an original or interpretive product or performance), activity (physical exertion contributing to a healthy lifestyle) and service (collaborative and reciprocal engagement with the community in response to an authentic need).

HIS High School Diploma Graduation Requirements

Language and Literature	4 credits	Language B	3 credits
Social Studies	3 credits	Health and Physical Education	2 credits
Sciences	3 credits	Fine and Performing Arts	2 credits
Mathematics	3 credits	Electives	4 credits
Other	Successful Completion of TOK / CAS / EE / Senior Presentation		
Total to graduate:			25 credits

benefit to the school, additional students might be enrolled.

Composite Classes

As numbers or academic composition of a group of students warrants, a composite class may be formed. In such cases, students will be clearly categorized as following one or the other grade level program represented in the composite class. For example, the school may offer an otherwise unviable language class to students by combining levels in one class.

Scheduling

- **Course Loads / Independent Study** - In the 6th-10th grades, students are scheduled for 8 classes. Core courses are scheduled 3 times a week, while other courses are scheduled twice a week. At times, students request to take a class through another accredited organization or an online course, in which case a self-study period may be granted for that work.
- **Grade 11 and 12 IB students** take six courses scheduled three times a week with TOK two times a week. Students will be scheduled one study period to be used for additional work, course preparation, instructional sessions, and community service.

Drop/Add Dates

Students wishing to change classes must see the Principal and receive a Drop/Add Form. This form is to be filled out by all the relevant teachers, the administrator, and the student's parents. This form must be completed within the first full week from the start of a semester. Class changes at times other than noted above are not normally permitted, but may occur at the discretion of the Principal.

Grading and Assessment

It is the philosophy of HIS that students will respond more favorably to the opportunity for success than the threat of failure. The school shall seek to make achievement recognizable and possible for students and conduct student evaluations as objectively as possible. Information will be shared with students and parents through Managebac. Reports will be shared in a quarterly basis. For more information on Assessment Policy Guidelines, please visit the [HIS Website: Assessment](#)

Progress Reports and Feedback

Parents and students will have access to ongoing assessment results for every course through Managebac. Simple progress reports will also be communicated at midterm to accompany face to face conferences between students, parents, and teachers. Formal report cards will be issued at the end of each term.

The quarterly report is primarily a form of communication from teacher to student and parent. It also serves as communication between HIS and another school to which the student might transfer. HIS considers the first more important, but must be aware of the differing systems to which its students will transfer; and thus the report must ensure a high degree of clarity. A student must be present for a minimum of 15 school days during a reporting period to receive a report card.

Additional means of home-school communication includes parent-student-teacher conferences that are held twice a year, informal meetings between teachers and parents, and letters and emails.

Although parents are interested in ratings and want to know how well their child is doing relative to the other children in the class, the school prefers to have parents and students focus on their child's individual progress and on ways in which they will be able to grow and improve. HIS will provide transcripts for students in grades 9-12 to be shared upon exiting the program. HIS does not weight grades or rank students within a cohort.

Awards and Certificates

Each year the HIS faculty provide an array of awards and certifications for students that are presented at the end of the year.

- **Academic Awards** - Principal's Honor Roll (see below)
- **Activity & Athletics Awards** - students will be recognized for their participation and involvement in clubs and organizations as well as sports teams. Those participating in multiple sports will be able to apply for a Three-Sport Athlete Award (HS) or a Six-Sport-Athlete Award (MS),
- **Community Awards** - students are recognized for their involvement, community service, and interactions.

Principal's Honor Roll

The HIS Principal's Honor Roll recognizes students who attain impressive success each year.

- **Grade 11 and 12 students** will be recognized for attaining a combined score of 37 or higher for 6 classes, with TOK as a B or higher mark.
- **Grade 6-10 students** will be recognized for attaining a combined score of 50 or higher for 8 classes.

Transcripts

High school students (grade 9-12) will be issued transcripts that document the sum of their work at HIS. Official transcripts can be shared with colleges and universities.

Transfer Students: Earned/Transferred Credits

Due to student transience and the multiple systems of international schools, issues regarding the transferring credit must consider a vast array of possibilities. What follows are general guidelines regarding these decisions. In all cases, final authority lies in the decision of the HIS administration.

- Students transferring into HIS will be awarded HIS credits for passing grades in equivalent-hour courses from their previous schools. Upon arrival at HIS, the administration will determine the courses that receive credit, and communicate the future courses needed to meet the HIS graduation requirements.
- For cases involving students who have attended school systems with different school years or courses that do not have a similar number of weekly contact minutes as HIS courses, the transfer of credits shall be determined by the administrator and communicated to the incoming student in a timely manner.
- Only full term, passing grades (60% - level 3 -- or higher or as determined by the other school's grading policy) will be eligible for credit.
- Transferring students may be required to demonstrate reasonable knowledge in a placement exam in order to be admitted mid-year into some classes.

Rehabilitation of Course Work

It is an aim of HIS that all students will be successful in their course work. Students in high school who receive a failing grade (2 or below) for a semester may be assigned an independent study contract to make up the failed work through an approved online course or summer program course. The contract will include clear time-limits for the completion of the work. If the student make-up work is satisfactorily completed, the failing grade will be changed to Level 3, which becomes the grade used for semester

results and transcript reporting. Students who have failed a term of work in an HIS course have the option to "test-out" of the failing grade by scoring a 4 or higher on an HIS semester test. Upon meeting this requirement, the student will receive a term grade of 3. The final test must be taken in a timely manner after a failed term. If retake does not score at least 4, no additional retake tests are offered.

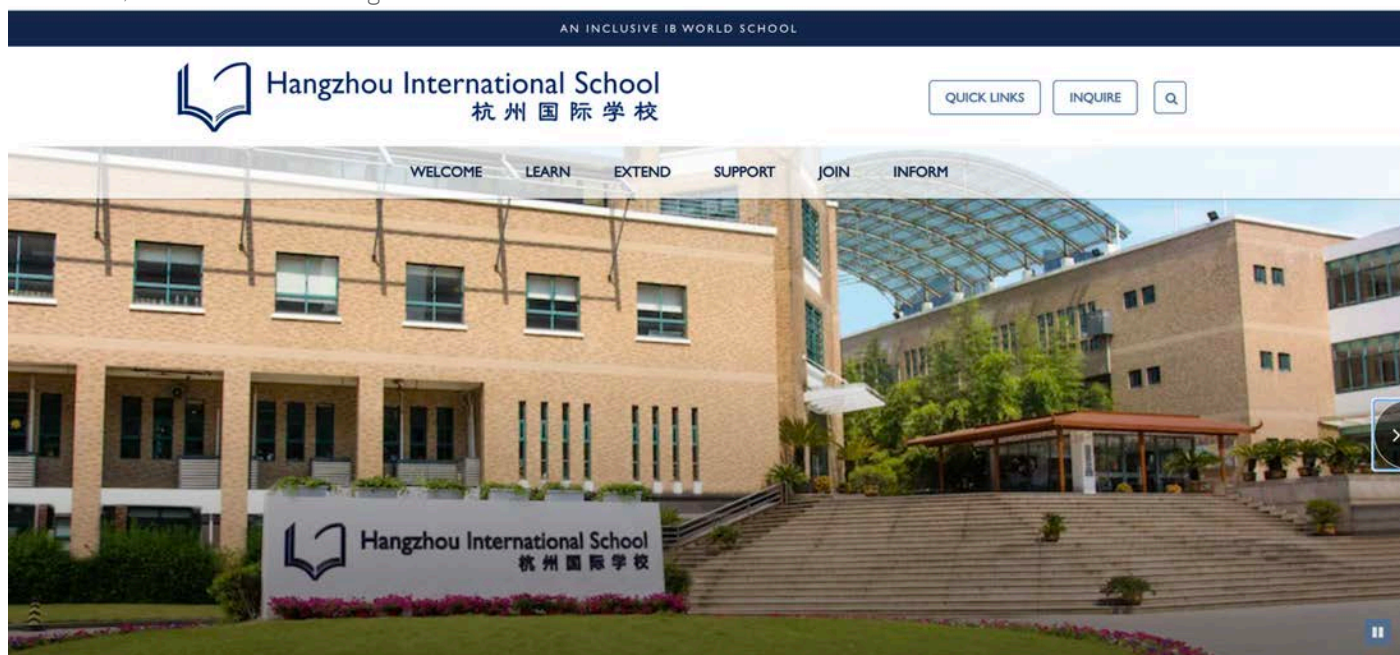

Make-Up Work

Students who miss school for any reason should review information posted on Managebac and contact the teacher as required for additional advice.

Students who miss school for extended periods, whether due to sickness or other reasons, can request a list of assignments and recommended work to make re-entry as smooth as possible. If a student misses a day during an assessment in class, the student should be prepared to take or submit the assessment upon his/her return. It is beneficial to contact the teacher prior to the student's return in order to finalize the details.

Teachers are not expected to create extensive individual programs, however, for students who miss school for long periods. While teachers will make recommendations

for summer reading, daily journal writing, and other such activities, which will keep a child reading and writing during long vacations such as the summer holiday, they will not set detailed, day-to-day assignments for these vacations.

Missing Work

Students who fail to submit work on time will be expected to remain after school to complete the missing work. Students with missing work may be required to attend school on a Saturday to complete assignments at the discretion of a principal. If a pattern of missed work or deadlines emerges, parents will be contacted and a referral made to Student Support Services

Standardized Testing

The HIS Upper School utilizes the Northwest Evaluation Association Measure of Academic Progress (NWEA-MAP) standardized tests for students in grades 6-9. These standardized tests are given at least twice per year. These tests are normed against North American standards and provide feedback to the individual student and the school as a whole. HIS offers the PSAT tests on site to all 10th grade students for diagnostic information. Under special circumstances, HIS will invite certain grade 9 and grade 11 students to take the PSAT.

HIS is an SAT exam center and offers the SAT throughout the school year. The college counselor will assist students in registering for the SAT, though parents are expected to pay the costs involved. Parents should contact the counselor with regard to how often and when the child should take the SAT.

Grade 12 students will take the International Baccalaureate Diploma exams in their final year of instruction. The fees for these exams will be borne by the students and their families. The examination and results will be moderated by external assessors.

3.2 Technology

Learning and Communication Platforms

General communication between the school and families involves one or more of the following:

- The school web site (<https://www.his-china.org>) is the

first point of contact for school information. Here can be found the school calendar and announcement postings as well as a large number of links to helpful pages.

- Managebac is our school curriculum management system. All scheduled assignments are posted to Managebac, and it is the main point of communication between students and teachers on academic matters. Parents have access to their students' assignments, grades, assessment comments, and attendance records on this site as well as teachers' email contact information. Parent emails listed on Managebac will be the point of contacts for parents. It is important that parent emails be kept up to date and that parents check emails regularly or set alerts for school communication. <https://his-china.managebac.cn/>
- The Office 365 suite is used for email communication, word-processing, presentations, online collaboration, and cloud storage. Students are assigned a license upon registration: <https://login.microsoftonline.com>
- Additional software and required updates for students are available from the online HIS Self-Service application.
- An update from the Principal's desk is emailed to all parents on a weekly basis as well as posted to the HIS website.
- Official WeChat grade level accounts for parents are generated each year to post information about school events.
- For specific team or group activities, additional WeChat groups may be organized for students, parents, and teachers to communicate transportation information, expectations, and celebrate the student activities.

WeChat Group Norms

The following expectations are in place for students, parents, and teachers when communicating in a public forum, such as WeChat:

1. Please clearly display your name.
2. Send necessary messages and simple responses. If your message is complicated, use email or direct messages.
3. Be mindful of your audience/group and respect their feelings.
4. Refrain from posting stickers or emojis in group chats.
5. Refrain from "chatting" with one or two people in a group. Use private messages where possible.
6. Avoid gossip. Use the WeChat group to talk TO people, not ABOUT people. Never post negative

messages about another member of the HIS community.

7. Evaluate the usefulness of your messages to others – does everyone really need to know?
8. Check your information before you hit 'send' – Is your information accurate and reliable?
9. Do not send messages when you are angry or confused.
10. Don't post anything you would feel uncomfortable saying to a person's face,
11. Avoid debate and argument – WeChat is not the right forum for it.
12. Be aware of your tone in any message you send; tone can be misinterpreted easily.
13. Do not use profanity or any words/phrases/ information that should not be used in a family environment.
14. Don't assume your group chat is private – it is not.

Any concerns about a student's progress at school should first be communicated to the teacher involved. If after such communication, a parent feels that further attention is advisable the parent should contact the advisor. If more information is required, parents may contact the Principal to discuss the matter further. The Director of School may be contacted when a parent feels a concern is still unresolved or if the concern directly relates to a Principal's decision or action.

Teacher email addresses can be found on Managebac, through the school web site, or by contacting the school secretary. Parents are encouraged to contact the school any time they have questions, concerns, or require information.

Laptops

Parents of students entering grade 6 through grade 12 are responsible to provide a recent model Apple Macbook laptop for dedicated use by their student at school on a daily basis. All models of Apple laptop (MacBook, MacBook Air, MacBook Pro) are currently acceptable for use at HIS if the hard drive/flash drive is 256GB or greater. It is recommended that students purchase an external 1TB hard drive for backing up data throughout the year and prior to the summer.

Technology Responsible Use

Students sign the Technology Responsible Use Agreement at the beginning of each school year: <https://form.jotform.com/202291319455454>

The user is responsible for providing oversight and care for their laptop. HIS school provides a basic level of care and maintenance for MacBooks. If a student requests HIS's assistance with a repair to fix or replace parts, this voids the current Apple warranty and ability to purchase Apple Care for the laptop in the future. Parents must sign a permission form before the repair can take place and HIS bears no responsibility for loss of warranty. Laptops should always be in good working order – security, cleanliness

and usability. Any known damage is to be reported to the Technical Support Staff immediately for repairs.

Laptops should only be used in class when instructed to do so. Upon issuance, it is expected that students will bring their computers with them to class for every period. However, students should not have computers out during class time unless specifically instructed by their teacher to do so. As a basic rule, policy is that during class time, the only programs or windows open should be those directly relating to the classroom content at hand. Laptops can sometimes become a major distraction in the classroom if used inappropriately. As such, it is imperative for students to understand that use of their computers is not a right but a privilege, and is contingent upon their compliance with the guidelines below.

Accordingly, as a general rule, the following uses are never permitted unless given explicit prior approval by a teacher:

- social networking sites
- gaming
- streaming video
- music and/or other audio
- instant messaging
- photo booth and/or other screen capture

Students must respect others' property including work, files, passwords and software. Users are responsible for keeping their own passwords secure and for changing them as often as necessary. It is mandatory that students change their passwords for Active Directory (Office 365 and laptop) and ManageBac at least once per semester. Users must not misrepresent themselves, or others of the HIS community via online communication. Lastly, students are not to use the school network for streamed media or downloading as it degrades the network performance.

Please understand that the communication systems and use of the school's network is public. HIS reserves the right to monitor any student at any time without prior warning to ensure reliability, integrity, security, and appropriate use of the equipment.

All students should be aware that any tampering of any

kind with someone's computer, files, etc or participating in cyberbullying* is considered an extremely serious offence, and will be disciplined accordingly by staff and administration.

*Cyberbullying is defined by the Center for Safe and Responsible Use of the Internet as "being cruel to others by sending or posting harmful material or engaging in other forms of social cruelty using the Internet or other digital technologies. It has various forms, including direct harassment and indirect activities that are intended to damage the reputation, or interfere with the relationships of the student targeted, such as posting harmful material, impersonating the person, disseminating personal information or images, or activities that result in exclusion."

Inappropriate use of HIS resources (including but not limited to items discussed above) will have violated HIS' Technology Responsible Use Agreement. Student consequences are outlined in the Upper School Student Handbook "Levels of Behavior and Consequences" found in the Behavior section.

In case of misuse, a student's laptop may be temporarily confiscated. Any and all work missed by students during this time will be their personal responsibility to make up in whatever fashion is deemed necessary. If a student loses access to the laptop during a time in which it is required for class.

Digital Dragons

HIS embraces new ways of communicating. Learners need to be taught the importance of using new technology in ways that are safe, helpful and kind. Developing responsible digital citizens should be the focus of every school, and at HIS we take this very seriously. On a weekly basis, from the first day onward, students are taught skills that enable them to participate safely and securely in the digital world, enriching their lives and their learning. To support digital well-being, Digital Citizenship at HIS adapts in part the Common Sense Education curriculum.

The Digital Dragon Program begins in Grade 5 and students graduate with a certificate at the end of Grade 6. Students in Grade 6 are required to provide a personal MacBook prior to the start of the school year and participate in introductory training for laptop care, ManageBac, Self Service, Office 365, and advanced commands and gestures. Students learn about privacy, web best practices, and digital citizenship. Students research regularly, communicate locally and globally, and learn computational thinking. HIS follows the International Society for Technology in Education (ISTE) for creating innovative learning environments, and developing 21st Century Skills: Critical thinking, Collaboration, Creativity, and Communication.

Upon completion of the Digital Dragon program at the end of Grade 6, all advisors must sign off that the student

has met the requirements of the program in order to receive a certificate. Possession of the certificate grants rights to all Self Service apps, including music apps at HIS, and the name is entered in the Digital Dragon Certified List. Students in Middle School are limited to specific apps and browsing rights. In Grade 9, full administrator rights are granted to students. Further information can be found on the Milestones by Grade Level chart located on the Technology page of the school website <https://www.his-china.org/learn/technology>.

Printing and Photocopying

Students are provided access to printers and copy machines for school purposes via access codes. At the beginning of each year students are allocated 50 RMB for printing on their Student ID Cards. Students can add credits at the Tech Pagoda when their funds run low.

Printing Costs for 2020-21:

- A4 Black and White 0.09 RMB
- A4 Color 1.2 RMB
- A3 Black and White 0.18 RMB
- A3 Color 2.4 RMB

ID Cards

Students are given an ID card at the beginning of their enrollment at HIS and periodically throughout their tenure. This card is to be used within the library, warehouse, and printing requirements.

3.3 Co-Curricular Programs

In addition to the academic program, HIS runs a comprehensive co-curricular Program for all upper school students. These include activities in the areas of athletics, arts, leadership, community service, and technology.

Athletics Program Objective

At HIS, our aim is to provide enjoyable and safe athletic opportunities to students. HIS will provide equal opportunity to all students regardless of ability, sex, ethnic background or age in a cooperative, friendly, and enjoyable environment between all participating students. Students will be encouraged towards a healthy social and physical lifestyle through participation in sport in a non-threatening

environment. Students are expected to complete an athletic registration document prior to joining a sports team.

The [Athlete Handbook and Registration](#) documents can be found on the HIS website.

Whether in practice or on the field of competition, the student athlete will learn the importance of dedication, communication, and perseverance. Sportsmanship is stressed and emphasis is placed on teamwork and cooperation. HIS students teams represent the school as the Golden Dragons.

High School Athletics (Grades 9-12)

High school students participate in seasons of 10-12 weeks duration coached by faculty members with experience in each of the sports. Practices occur three times each week, normally between 3:30 - 5:00pm. Athletes get several opportunities to play matches after school against Hangzhou-based international schools as well as competing in multiple tournaments during the season in various Athletics conferences. Varsity teams will normally conclude their season with an ACAMIS tournament which involves a multi-day tournament format in host schools located throughout China and Mongolia.

Middle School Athletics (Grades 6-8)

Middle School students have an abundance of choices which can keep them active and developing their skills and understanding in sports and recreation activities. Seasons are generally six to eight weeks long and consist of two one-hour practices each week. Within the season, some after school matches may be organized with other Hangzhou-based international schools to prepare teams for their season-ending tournaments.

For more information about the HIS Athletics program, please check the HIS website: [HIS Athletics](#).

Conference Affiliation

HIS maintains membership in CISSA (China International Schools Sports Association), SISAC (Shanghai International Schools Activities Conference) HISAC (Hangzhou International Schools Athletics Conference) SSL (Shanghai Swim League), and ACAMIS (Association of China and Mongolia International Schools) and will observe all the rules and guidelines of these organizations.

Coaching Philosophy

- Students will be encouraged to participate in a variety of international team and individual sports that will be based on the interest, needs and abilities of students as well as the school's ability to provide safe and appropriate facilities and equipment.
- Emphasis will be placed on teamwork, sportsmanship, and learning.
- Coaches will maintain the freedom to change rules, facilities, equipment, player numbers and ages in order to provide a more equitable and fair sporting environment.
- HIS players and coaches will stay within the "spirit of competition" by observing individual sport rules and broader rules of sportsmanship and courtesy at practices and games.
- Coaches are expected to ensure that all students have equal access to facilities and playing time, as appropriate for age level and level of competition.
- Coaches maintain the right to distribute disciplinary action if students are misbehaving or acting inappropriately at any practice, game or any other time students are under the coach's supervisory control.

Player Philosophy

Student athletes are required to maintain good academic and behavioral records at school and may be disqualified from participation at the discretion of HIS administration for academic or behavioral reasons. Students will be placed on individual contracts for improvement to provide best opportunities for all to take part.

Any student who meets behavioral and academic requirements will be provided access to play. HIS will not hold try-outs for middle school sports and all students will have equal opportunity to participate in games and practice regardless of ethnic background, ability, sex or any other qualifying factor. High School Varsity level sports do hold try-outs and the amount of playing time is based on ability, performance, attendance, and team needs.

Students are expected to attend all practices and games, unless excused by the coach. Repeated failure to attend practices or games may result in the student's disqualification from participation. Representation in games will be based on practice attendance, team spirit, ability and any other guidelines the coach deems appropriate.

Co-Curricular Activities Program Objectives

HIS offers Co-Curricular Activities (CCAs) to all students from Kindergarten to Grade 12. This program allows students to develop talents in an environment that promotes the growth of leadership and communication skills, all while being hands-on and engaging. Activities fall into the categories of Academic, Physical, Creative, and Cultural development. For more information about specific activities offered, please view the HIS website: [Co-Curricular Activities](#).

Students are expected to balance their academic requirements with the CCA and sporting activities that make up the co-curricular programs at HIS.

Students can register for activities in each session, keeping in mind their personal schedules.

- Session 1 - September - December
- Session 2 - January - March
- Session 3 - April - June

3.4 Student Life

Field Trips

Field trips are an important part of our school program. The goals of these trips include exposure to the culture and geography of this country, and social and behavioral experiences for the students. When field trips are planned for classroom purposes, all class members are encouraged to participate. Field trips can be classified as classroom-based local trips or extended overnight trips for sports and activities or China Trips.

Expenses

The school will provide transportation for approved local trips in the general Hangzhou area. In some cases parents

will be asked to help support these trips by paying entry fees or other related costs. Generally, overnight field trips will only be approved in special cases for middle and high school students. Families will pay expenses for overnight trips for high school students such as ACAMIS events or Tournaments. China Trip expenses are generally built into the annual tuition, but in some cases, there may be additional funds requested for certain activities.

China Trips

Students are expected to attend the grade level China Trips. These trips are co-curricular programs designed to extend and enhance the classroom experience. These trips, a fundamental element of student life at HIS, challenge and inspire our students as well as develop strong social ties and grade level team spirit. The trips typically contain elements of cultural experience, language development, physical activity, and community service. Student safety and security are a primary objective of the program, so the trips are planned with care and foresight regarding activities, lodging, and food. For specific grade-level information related to the trips, please visit the HIS website for [China Trips](#).

Permission Forms

Details of each trip and its justification will be sent via a letter from the sponsoring teacher. This letter will include a permission form that must be signed by the parent and returned to the teacher if the student is to participate in the trip.

Students are expected to wear the school uniform on field trips unless expressly indicated otherwise. HIS expectations and understood codes of behavior are in effect on all field trips, just as they would be on the campus. During daily field trips and especially during longer sports tournaments, it is expected that the students will take pride in being an HIS Dragon and represent the school by demonstrating appropriate and responsible behavior.

Student Council

Students wishing to take on a leadership role are encouraged to join the HIS Student Council each year. The Executive Council runs for election in December for a calendar year. Students running for the Executive Council will present for a school-wide election. Each grade level advisory class will elect class representatives to share student questions, concerns, and needs with the larger group. For more information about the Upper School Student Council program, visit the HIS website: [Student Council](#).

Events and Opportunities

Students have access to a variety of activities planned by Student Council, HIS House Teams, Advisors, and the HIS Administration team. If students are interested in joining activities that do not currently exist, they are encouraged to create a Student-Led Activity to share. Typical activities include Bingo Night, Halloween Bash, Winter Chill Evening, Sleep-Over, High School Prom, Middle School Formal,

Winter Bazaar, House Games, Dragon Run, and more.

Curricular Activities

Part of the curricular program provides additional experiences for students to gain learning in new contexts. Grade 9 students join the Rice Babies project and a Work Experience placement to gain insight about life skills and career choices.

Students are expected to join community service activities that take place on campus and off. From acting as welcoming Dragon Ambassadors at the beginning of the year to working in the Community Garden, helping support the Winter Bazaar or Dragon Run, or acting as Admin Support in the Model United Nations West Lake Conference each year, students have multiple opportunities to provide support for the HIS school program needs. Students are encouraged to join additional community service projects outside of the school campus and document their engagement on Managebac for completion of service requirements each year.

Part 4: How We Support Students

4.1 Being Prepared for Lessons & Learning

Hangzhou International School (HIS) is committed to providing international learners with valuable opportunities to pursue academic and personal excellence within a caring community. We strongly believe that the key to student success is building partnerships between all stakeholders (students, parents, faculty, learning specialists, administrators). Our aim is to foster an inclusive learning

environment that embraces diversity, encourages inquiry, challenges the intellect, and promotes positive behaviors and attitudes.

Across the Upper School, all students will participate in the IB program. The inquiry-based curriculum allows for teachers to adjust material with regard to the skill level of the student, previous learning experience, and the current unit of study. We make reasonable accommodations, modifications, and interventions within our school's capacity.

HIS aims to serve all children of the international community in Hangzhou to the best of its ability. At HIS, we believe all students can learn and succeed. We believe that students with learning differences should be included in naturally occurring settings and activities with their peers. HIS commits to educating all children to the maximum extent appropriate in the regular classroom setting.

Support Programs

Providing all students access to the curriculum is a primary responsibility of all HIS teachers. At a foundational level, teachers offer differentiated instruction by considering students' learning styles, strengths, and weaknesses. Any student who is experiencing academic difficulties may receive an academic action plan, which identifies strategies and supports to assist students (i.e. required attendance at office hours, tutoring, classroom accommodations, etc.).

School counseling is also available at school to assist students in need of behavioral, emotional, or social support. Common issues students and their parents seek help for include conflict resolution, peer problems, transitional struggles, study and organizational skill, conflicts at home, and crisis or grief response.

The larger goal of counseling support will be a reflection of personal progress toward learning and healthy involvement in the school community. HIS counseling services are meant to provide short-term support focused on immediate improvement. If extended support is needed, or services cannot adequately be provided at school, the counselor will assist the family in locating appropriate help within China.

College counseling is available at school to educate students and parents about colleges, the college admissions process, trends, procedures, and testing. Seniors and their families are advised and supported as they go through the process.

Learning Support Services

The Student Support Team is composed of two full-time learning specialists and a full-time school counselor. Upper school students receive targeted supports from faculty and learning specialist, drop-in sessions for additional support, and close monitoring for progress towards individualized goals. Students receive support during the school day, as well as after-school hours. The school counselor offers a

range of social and emotional support services to families, including parent workshops, consultation, individual and group guidance, and referrals.

Our program offers three levels of support that promotes academic success. We deconstruct the instructional content to identify key skills students need to ensure for progress. The Student Support Team works in collaboration with classroom teachers to ensure that students have access to appropriate curriculum and can make progress towards expectations. Learning Specialists also work directly with students who require additional academic supports.

- Tier 1: Referral and consultation.
- Tier 2: Referral, consultation, modifications and accommodations implemented.
- Tier 3: Referral, consultation, supplemental support, progress monitoring.

An annual review of records allows the student support specialists to determine whether a student will receive services the following school year.

Referral Process

The referral process begins when a teacher or parent shares a concern regarding student progress. In the initial stage of the referral, a teacher documents current data and strategies already in place. The Student Support Team collaborates with faculty to develop evidence-based interventions. Supplemental assessments are administered to students to identify individualized short-term goals. If student progress is not observed during this stage, a student support plan will be developed to address specific needs. The student support plan may include short-term accommodations, additional academic support, and/or consultation. After 4-6 weeks of implementation, the support plan will be reviewed and adjusted as needed. If inadequate progress is made, the Student Support Team will request an evaluation from a qualified specialist in the community.

Formal Student Support Plan

Upon review of evaluation results, the Student Support Team will use recommendations as a guide to formulate a Student Support Plan. This plan will highlight areas of strength, areas in need of development,

and recommendations for instruction. Reasonable accommodations and/or modifications may also be included in this plan. Teachers, parents, and the student are involved in the final development of this plan. If after extensive consultation and review, it is determined that HIS is not able to adequately meet a student's needs, then the Student Support Team will counsel the family to identify alternative educational programs.

Language Support

HIS provides support within the school day to students for whom English is not their first language. At the beginning levels, the ESOL program concentrates on equipping students with the vocabulary and structures for meeting immediate school needs and assisting in the settling process. As students gain confidence, they move into language acquisition classes (English B) designed to develop speaking, listening, reading, and writing skills to a level that will enable them to participate effectively in all regular classroom lessons including English language arts.

Students with limited English proficiency, or transferring from non-English speaking schools, will be assessed for admission and placement in the HIS language program using a WIDA assessment. For any student whose oral and written language is not sufficient to function satisfactorily in academic subjects, ESOL support can be provided by the classroom teacher and/or additional lessons provided based on need. This may include both English Language B classes and additional ESOL support as deemed necessary.

Academic Support

Teachers are available between 7:30 - 7:55 am or 3:05 - 3:30 pm each day for Office Hours to answer questions, help students identify next steps, or provide feedback. Students are recommended to schedule time with their teacher during Office Hours to ensure availability and interaction. Students who are struggling in classes are advised to take advantage of this opportunity before considering an outside tutor (unless recommended to do so by the school). HIS teachers are not permitted to engage in tutoring for pay.

Counseling

Our school Counseling and Wellness program promotes personal, emotional and academic development for all

students through large and small group instruction as well as individual services. Our program is focused on being proactive and preventative rather than reactive and punitive. Students participate in lessons about transition issues, global citizenship, personal health and safety, conflict resolution, and life beyond school. We also provide parenting education. Our Counselor is part of the Learning Support team to ensure appropriate academic, behavioral and social support is available for all students.

University counseling is provided to all Upper School students with increasing levels of intensity as they progress in age and grade level. Our students receive guidance and assistance with all aspects of the university planning and selection process, admissions and testing requirements, and college and career exploration activities. For additional information on university preparation timelines and application information, visit the [HIS Counseling website](#).

4.2 Living in a Community

Attendance

In the event that a student misses either five classes in a quarter or ten classes in a semester (in a given class) for any reason (including late enrollment), the Principal will convene a committee of class teachers to consider whether that student can be awarded credit for that course. Each class will be considered separately and decisions may be different based on subject matter and the ability of the teacher to assign comparable make up work for excused absences.

Behavior

At the core of our belief about student discipline is respect. By maintaining our lines of respect, most issues we face can be handled with minimal disruption to the educational program. Most aspects of our School Discipline Policy are encompassed in the following statement:

At HIS, We Respect:

- Learning
- All People
- Property
- Language
- Personal Space

The aim of the guidelines is to develop a caring, safe and positive school environment that encourages a strong sense of belonging; and where the rights and responsibilities of individuals are recognized and respected.

We expect students to behave in a way that is conducive to a productive educational environment. This means that students will not only strive to take full advantage of their own learning, but also ensure that they do not interfere with others trying to do the same.

Discipline Process

It is understood that there will be times when some students may have difficulty with acting responsibly and making good choices. In such cases, we believe

that consequences for misbehavior need to be fair to help students develop self-management and personal responsibility. To this end, a consequence for misbehavior should involve some follow-up discussion with the student for processing purposes. In order for consequences to be fair and effective, incidents need to be considered individually. However, in order to maintain consistency, HIS operates within a series of consequential guidelines. Listed on the next page are possible consequences for disciplinary incidents which may be single, sequential, or simultaneous.

Behavioral Expectations Non-Harassment Policy

It is the policy of the HIS Board of Directors to provide an educational, employment, and business environment free of unwelcome harassing situations. Harassment is understood to include unwanted behaviors (including bullying) directed against a person's racial, religious, sexual, or other personal orientations that are of a persecutory nature to the individual.

Fighting

Fighting is not accepted. "Play-fighting" and "horsing around" can also result in an injury to others and is prohibited. Fighting may result in an out-of-school suspension for all those involved.

Discipline Process

It is understood that there will be times when some students may have difficulty with acting responsibly and making good choices. In such cases, we believe that consequences for misbehavior need to be fair to help students develop self-management and personal responsibility. To this end, a consequence for misbehavior should involve some follow-up discussion with the student.

Weapons

Students are prohibited from bringing weapons of any kind onto the campus. Any instrument which can propel a projectile which might cause physical injury, including sling shots, bb guns, or any sort of pellet or paint guns, in addition to real guns, knives, martial arts objects, or any such instrument or machine that could either cause harm or give appearance of being capable of causing harm should not be carried on to the campus. Even toy weapons are prohibited.

If a teacher or administrator sees items that match the the above description, these will be confiscated and a discussion will be conducted with the student and parents. The item will be returned to the student's parents after a meeting with the Principal is held to insure that there is a clear understanding of the regulations.

Obscenities and Profanities

All students are expected to use appropriate, non-offensive language and gestures. Failure to do so will result in referral to the Principal and consequences as listed.

Level 1 Behaviors		Level 1 Consequences	
<p>Not Taking Responsibility</p> <p>Minor offenses that do not directly disrupt the teaching and learning of others such as:</p> <ul style="list-style-type: none"> • Not following classroom expectations • Arriving late to class • Not bringing materials to class • Being off-task • Not doing homework • Littering / not cleaning up after self • Using mobile devices in class • Using computer for non-instructional purposes including messaging in class time, accessing social networking sites, using a laptop when the teacher has instructed it to be closed 		<p>Consequences are designed to promote responsible behavior.</p> <p>Depending on the behavior, the following interventions are employed by the teacher:</p> <ul style="list-style-type: none"> • Verbal warning - provide feedback regarding behavior and reminder of rules • Discuss strategies for improvement • Stay after class or short break detention • Document on JotForm and notify parent • Removal of item (bring to Principals) • Report if necessary to the Principals 	
Level 2 Behaviors		Level 2 Consequences	
<p>Not Behaving Respectfully</p> <p>These include behaviors which disrupt teaching and learning (or repeated Level 1 behaviors) such as:</p> <ul style="list-style-type: none"> • Disturbing/Disrupting the learning of others • Frequent/repeated lateness to class • Absent from class/school without permission • Plagiarism, collusion, cheating, lack of academic honesty • Rough play (including hiding others' belongings) • Inappropriate language • Inappropriate displays of affection • Computer use that violates "Acceptable Use Policy Agreement" including: offensive emails, using non-HIS network, using passwords other than your own to access information, spamming, other inappropriate computer use 		<p>Consequences are designed to allow students to reflect on their behavior and plan improvement which may involve the support of the Principal, Counselor, Parents and the teachers.</p> <p>May include any of the consequences above and:</p> <ul style="list-style-type: none"> • Warning • Daily report/contract • Conflict mediation/counseling • Temporary removal from class • Parent-Teacher Conference • Lunch/Break Detention • School Detention • Limiting access to apps, internet and/or email • Restitution • Digital Dragon re-certification 	
Level 3 Behaviors		Level 3 Consequences	
<p>Serious Offenses or Repeated Level 2 Behaviors</p> <p>These include behaviors which violate the rights of others and/or are considered dangerous such as:</p> <ul style="list-style-type: none"> • Repeated Level 2 Offenses • Violence or vandalism toward self, others or property; Fighting • Possessing banned substances including tobacco, alcohol, non-prescription drugs or substances • Harassment (online or in person) • Theft • Plagiarism, collusion, cheating, academic dishonesty • Possessing dangerous items or weapons or replicas • Possessing or accessing pornographic material • Computer use that violates "Acceptable Use Policy Agreement" including: offensive emails, using non-HIS network, using passwords other than own to access information, cyberbullying, spamming, computer hacking, trashing, or tampering in any way with another person's work 		<p>Consequences are designed to demonstrate that students will lose privileges if they don't respect the rights of others which may involve the Teachers, the Parents, the Counselors, the Administrators and other support agencies as appropriate.</p> <ul style="list-style-type: none"> • May include any of the consequences above / or • In-school Suspension • Parent-Teacher-Administrator Conference • Drug testing • Out-of-School Suspension • Ban from computer equipment • Payment for damage or repairs • Referral for outside counseling • Review of incident by the School Head, and/or the School Board and placement in school file • Report to the local authorities 	

Drugs, Alcohol and Tobacco

HIS is a non-smoking environment including all areas within the perimeter fence of the school grounds for students and adults. Students possessing or using tobacco at any time while under the care of the school are subject to discipline, including suspension and expulsion. Similarly, student possession or use of alcoholic beverages is prohibited during any period students are under school supervision and responsibility, even if they are over 18 years of age. While alcohol may be allowed on campus during occasional teacher and/or parent events, consumption by any student is not allowed.

For the protection of our students, our school has a “zero tolerance” policy in the case of the use of illegal or mood altering substances that have not been medically prescribed. To that end, any student enrolled is subject to random or targeted drug analysis testing if determined to be prudent and necessary by the Director of School. All drug testing is non-invasive and done via a laboratory analysis of a hair sample. In the event that your child is chosen for random or targeted drug testing, you will be notified prior to the hair sample being taken, and when the laboratory results have been returned.

Chewing Gum

Chewing gum is not allowed on the HIS Campus. Students will be asked to dispose of it if found using.

Displays of Affection

Students should refrain from inappropriately intimate behavior both on campus and at school events.

4.3 Academic Honesty

Drawn from the [HIS Academic Honesty Guidelines](#)
As described by the IB Learner Profile, HIS students are developing into “inquiring, knowledgeable and caring learners who contribute positively to their communities.” Opportunities to read, write, consider and create are a daily occurrence. Drawing upon a foundation of collaborative information and ideas HIS students build and voice their own understandings and express new ideas in their own unique perspective. These guidelines are intended to educate students in ethical effective use

of the resources available to them as they make their own contributions to the HIS community and beyond.

The academic program of HIS is rigorous and encourages independent inquiry-based learning. Students of HIS are encouraged to pursue their own authentic thoughts and ideas, and add credibility to their work by giving credit and properly citing sources where appropriate. In this environment, academic honesty and the trust it engenders is a core value of the community.

Academic Honesty Code

The school's Academic Honesty Code is as follows:
“HIS values authentic academic work that holds learners accountable for the integrity of products they submit. This includes, but is not limited to, postings, assignments, exams, projects and the extended essay. HIS cannot accept work that lies outside of general academic and instructor expectations regarding proper citation of sources as specified by the most recent MLA Publication Manual. I understand that it is my responsibility to know the expectations of the HIS Academic Honesty Guidelines and submit work that represents my own effort. Where I have used the words and ideas of others, I have paraphrased and given credit according to the guidelines of the MLA publication manual.”

Academic Conduct

Appropriate academic conduct calls for students to act as scholars, drawing on a growing body of information and ideas for knowledge, foundation, and inspiration while generating their own original products and using feedback as a constructive opportunity for continued growth. Academic misconduct is behavior (whether deliberate or inadvertent) that results in, or may result in, the student or any other student gaining an unfair advantage in one or more components of assessment.

Behavior that may disadvantage another student is also regarded as academic misconduct. Any behavior that gains an unfair advantage for a student or that affects the results of another student will prevent students from gaining the full learning benefit of completing the task. This may include, but are not limited to:

- Submitting work/ideas that reflects the original thinking and/or writing of a tutor, parent, the internet, or any other individual/source other than that of the student

- Using translations from internet applications to produce work in the language of the class
- Falsifying data to be analyzed as part of an original investigation
- Copying the work of others
- Allowing or assisting others to copy work
- Plagiarism of any form such as copying websites and not citing ideas presented by others
- Submitting work not performed by the student
- Tolerating academic misconduct in others

Student Responsibilities

The school expects students to work together and to help each other learn. Additionally, the school encourages a classroom environment in which the ideas of students are valued by the teacher and fellow students. Most tests, quizzes, and written assignments (compositions, research papers, and so forth) are intended by the teacher to be completed independently by the student. Students who copy information from another student, or who in any way present work or ideas as their own when the work is not theirs have violated the code of academic honesty. In order to avoid academic misconduct, students should:

- Ensure that all submitted work is authentic in nature as it is their own work
- All externally evaluated IB assignments, internal projects, or advisory guidance will be instructed and completed in MLA style. Work in the classroom as well as the Extended Essay is determined by departmental discretion related to style guides limited to Chicago, APA or MLA

Include a References (APA), Works Cited (MLA) or Bibliography (Chicago) page with any assignment that draws upon sources

- Cite the work of others, whether quoted or paraphrased, using the most current APA, MLA, or Chicago format
- Respect the concept of intellectual property for non-textual sources
- Conduct themselves appropriately within a testing environment

Identifying Academic Misconduct

Teachers use professional discretion to identify work of

concern and must provide evidence in supporting that concern. Such evidence might include:

- Examples of student work showing an unexplained "jump" in apparent quality
- Inconsistencies between knowing, understanding, and skills demonstrated in daily learning activities and on assessment tasks
- Lack of notes, plans, process journals, drafts, or other evidence of the student's scholarly process.
- Reports from a plagiarism detector
- The professional judgment of the teacher; not admittance of guilt by the student, is the basis for whether the Academic Honesty Policy Guideline has been breached.

Consequences of Academic Misconduct

Academic honesty is required at HIS. In the event that a student is shown to be dishonest, one or more of the following will occur: the assignment will not be accepted, student support will be notified, administration will be notified, the student's parents will be notified, (s)he will serve a suspension. Note that the student will lose the right to appear on the honor roll for that semester. Repeated infractions will result in a student being asked to leave HIS.

Where misconduct is suspected, teachers will meet with students in person, express their concerns, and give the students the opportunity to provide additional evidence of their originality and integrity of their work.

In Grade 6 or earlier; and for any students in their first year at HIS, initial lapses in academic honesty may be treated as learning opportunities, and the teacher will work with the student to ensure that they understand the standards and how to practice them. Work in this case may be resubmitted for a grade with no penalty, at the teacher's discretion.

Whether subject to disciplinary action or treated as a learning opportunity, all incidents in the Upper School will be documented and the student's advisor and administrator will be informed. Work produced through confirmed malpractice will not be graded. Reoccurring misconduct or malpractice may be subject to disciplinary action, at the discretion of the teacher and administration.

In the case of an emergency evacuation drill, the fire department and local education authorities will be notified. Bus evacuation drills and other safety drills will also be conducted annually. Guests and visitors on campus will be expected to take part in the evacuation drills.

4.4 Health Related Issues

Health Card

All students must have a Health Card on file in the office. (The blank health card form is part of the admissions packet; copies are available in the office.) Current TB

(tuberculosis) tests are required for each student annually. Please note that it is of vital importance to have contact numbers for both parents and an emergency third party (neighbor, friend) so that the school may contact parents in the event of an emergency.

Medication

Any medication to be administered during the school day must be sent to the school nurse with full instructions and proper labeling. Students may take the medication in the nurse's office.

Illness

If your child is sick or has been diagnosed as having a contagious disease or illness, please notify the school nurse at nurse@his-china.org immediately with symptoms.

School medical staff are responsible for caring for children who become ill at school, and for dealing with accidents. Students who are ill should not be sent to school, as they pose a health risk to other students. If a child comes to school sick, the office staff will telephone the parent and request that a driver is sent to return the child home.

Any chronic illness needs to be disclosed to the nurse as well as the classroom teacher. Students with contagious illnesses should be kept at home until a doctor verifies that the period of contagion is past. This information is critical to help contain the spread of illness. If a student becomes ill while at school, they are taken to the nurse for an assessment. If the nurse determines that the student needs to go home, the following steps will be taken:

- A parent will be called to pick up the student. If a parent cannot be reached, the emergency contact person(s) designated in the student's file will be contacted. Students who are ill should be picked up as soon as possible following notification from the nurse.
- The student will be kept in the clinic and monitored by the nurse until a parent or other designated individual arrives.

Children who have been absent due to illness may be required to bring a doctor's note to school with them to confirm the illness and recovery process.

Medical Emergencies

In the case of an accident involving serious medical emergency or injury, a student's parent/s will be contacted as soon as possible. The school nurse will be asked to consult and identify the level of emergency. A designated faculty member will stay with the afflicted child and send for help from the school office. If the child needs to be removed to the hospital, the parents will be contacted to support the transport to the nearest appropriate medical facility. A representative from the school may accompany the child and the parent, depending on the situation.

Head Lice

Parents should be advised that it is not uncommon during any school year to have cases of head lice at school. Head lice, although not a serious condition, is quite common in schools and can create great difficulty within the school setting. Students who are detected as having head lice will not be able to remain in school until free of any lice or nits. If live head lice are detected, the hair should be treated with shampoo products designed for treatment of head lice. When lice is detected in the classroom, we send a notice informing parents and involve the nurse in checking the entire class and bus. This will be handled in a confidential manner. When students return to school after having been identified with head lice, they will need to have the school nurse's approval to attend classes. Please inform the school if your child has head lice.

Air Quality Monitoring

The HIS administration team and school nurse are responsible for monitoring air pollution information. This information will be gathered daily from monitoring centers and, when there is elevated air pollution, disseminated to all staff members. In addition, information from the media, the Hangzhou Education Commission, local air pollution control agencies, and health departments will be considered where applicable.

The school will communicate any concerns regarding air pollution using a color-coded system that is based on the US Environmental Protection Agency's Air Quality Index.

Decisions for reducing exposure to air pollution will be

based on individual student risk. Students at highest risk (including students with respiratory diseases, and sports or activities that require heavy exertion for extended periods of time) will be given greatest consideration. The indoor environment at the HIS campus is fully filtered, thus the above practices are applicable only for outdoor activities. For additional air quality information, please visit the HIS website.

Emergency Drill and Evacuation Procedures

Emergency drills are vital in order to ensure the safety of the students entrusted to the school's care. At least two drills will be held annually for emergency evacuation and shelter in place. Students will learn these procedures and the evacuation routes with their classes, understanding the seriousness of emergency evacuation and safety drills. Maps of evacuation routes are posted in each classroom and meeting space. Silence must be maintained during the evacuation.

4.5 Family Contacts

Guardianship

If parents leave Hangzhou temporarily and leave their child/ren in the care of someone else, it is required that they notify the school giving all dates, names, numbers and pertinent information in advance. Students should be left in the guardianship of a responsible adult who can communicate with the school if needed.

Change of Contact Information

Please advise the school office of any change of address or contact information as soon as possible. It is essential that the school have accurate phone number and emergency contact information for all children.

Withdrawal from HIS

Students leaving HIS should inform the office as soon as they know they will withdraw. This will enable the office to prepare leaving documents. Before such documents can be issued, a withdrawal form must be prepared, which checks on such items as library and textbooks, outstanding fees, forwarding addresses, and so forth.

Students who withdraw within three weeks of a normal Progress Report issuance will not receive an early report. The Progress Report will be forwarded to the parents or the office when it is issued on the regular date. Students

leaving more than three weeks prior to a Progress Report issuance will receive a special interim report, listing the progress of the student at the time of the withdrawal.

Part 5 : PAFA

PAFA's purpose is to provide support to the school through the coordination of special activities outside of the regular school program and to coordinate parent involvement with the school through volunteer work. Parents of HIS students are by definition members of this organization. PAFA will elect a group of parents to coordinate activities. These elections normally occur in June or December, but can be called at any time.

PAFA conducts various activities, some of which help raise funds for the school and some of which provide volunteer support for teachers and students. PAFA is legally an entity of HIS, and it is a school requirement that all funds earned under the auspices of PAFA be allocated and spent within one year of their having been raised. PAFA's allocations have generally been for materials outside of the normally budgeted books and supplies, which the school funds through tuition payments. Examples of PAFA allocations include enrichment opportunities such as artist, author, or special guest visitors, special funding for extracurricular events, and items that specifically support PAFA's mission.

PAFA also serves as a channel through which parents can communicate ideas for the betterment of the school to the administration. It works in an advisory capacity only, however, and does not establish school policy. That is the domain of the administration under the supervision of the Board of Directors. PAFA is not a vehicle to air individual parent concerns or a substitute for communication directly to the school. PAFA uses the HIS website as its main form of communication. Further information regarding PAFA can be found on the school website www.his-china.org.
